In This Fact Lies the Only Hope of Peace.

ATTITUDE OF THE MILITIA

LOUISVILLE, Ky., November 6.-Excitement is at fever heat in Louisville on the eve of the coming election, and tomorrow is looked forward to with apprehension. As the most vituperative, vindletive and bitter eampaign which Kentucky has known since the war draws to a close men are going

All this is because each of the contending factions accuses the other of getting ready to steal the election. It is partly the result of years of notoriously fraudulent election practices in Louisville, conducted by both democrats and republicans. Now that the factions have divided, each one suspects the other of contemplating the frauds which they know, from former experiences of their own, have been committed, and can

The hope for a peaceful election probably lies in the extensive preparations which are being made to prevent fraud. Where it is known that watchful eyes are present and guns are handy, held by men who will not falter in using them, men may hesitate in committing overt acts.

There is a power of moral suasion and influence for good in a double-barreled shot-

gum loaded with buckshot and heid by a six-foot Kentuckian with blood in his eye. My personal opinion is that the public tension is so strong it will hold vio ence in restraint, yet it is easy to see that if it should give way the conditions are ripe for grave consequences.

Politicians Have Hysteria.

To an outsider with unbiased mind the situation in Louisville today partakes decidedly of the nature of the hysterical. It cannot be said that the newspapers are allaying the excitement. The factions are ready to fly at each other's throats and some of the newspapers seem to be urging

Honest Election League has rented halls in various sections of the city wherein to mass men who upon call can proceed to a

denial of the franchise to colored men. So the federal officials will hardly take a hand, the marshal and the district attorney having both left the city for their homes to vote. Gov. Bradley is evidently getting ready to adopt stern measures if necessary. Advices from Lexington today are that the 24 Beginnet has been ordered to be the 2d Regiment has been ordered to be in readiness to move at a moment's notice.

Cloud May Blow Over.

Conversations during the day with conearlier impression that the elaborate preparations for trouble will tend to prevent disorder, rather than otherwise, as the leaders will hesitate to bring on a conflict. headway, would precipitate a general conflict. Louisville is the center of interest in the state now, and the campaign will be the state now, and the campaign will be closed tonight with specches by the big men of both sides. Gov. Bradley and Candidate Goebel will address audiences tonight, and Brown craters will hold forth in several halls. The feeling among the Brown democratis has been intensited by the refusal of the election commission to allow them to have challengers in the election baths. They will have to be seen

l'esting Right to Establish a Provisional Court in Porto Rico.

A formal effort was made today in the United States Supreme Court to secure eave to bring the case of A. C. Farrar-Hickey to this court from the provisiona court of Porto Rico. Mr. Shannon asked cave to file a petition for a writ of certiorari, but stated that the complete record in the case had not arrived.

The chief justice said the complete record would be necessary, and Solicitor Genera Richards intimated that the government would make opposition to the filing of the papers. The motion was taken under adis ement.

Farrar-Hickey prior to 1889 became and is now a citizen of the United States and served in the army of occupation of Porto Rico until the termination of the war with Spain, after which he was employed at Sar lan as a clerk to Maj. L. P. Davison, S. V.

The important feature of the case is the question of the right of the President to establish a provisional court in Porto Rico.

sentiment in their favor. Gen. Thomas J. Shryock, chairman of the republican state committee, this morning claims that Governor Lowndes will be re elected by a good majority, and that the next general assembly will be safely republican. He says a careful and thorough publican. He says a careful and thorough canvass of the city and state show that the party is united in support of the state ticket, and that the sound money democrats will give at least two-thirds of their votes to the republican ticket. He says he has no doubt whatever on the subject, and in his views he is corroborated by all the local leaders. Wherever dissensions exist they are purely local in their nature and will only affect local candidates, and will in no wise harm the state ticket.

the state ticket, but Mayor Malster and his subordinates say their people will vote the straight ticket and that to a man they will be loyal to their perty. If this should be the case there is no doubt westever as to the result, and Lowndes will be re-elected by a large majority.

Scheme of the Democrats. Another scheme of the democrats which will probably fail is to bribe colored voters their own way. They tried to bribe this vote for their party more solidly than they

of Success. Special Dispatch to The Evening Star.

CUMBERLANI Md., November 6.-Governor Lowndes left at noon today for Annapolis, where he will cast his vote tomorrow. The governor says all indications point to republican success, and he is confident of re-election. During his two days' stay here he received most encouraging reports from all sections of Allegany and

Lowndes will have 1,500 majority in Allegany county. John W. Geerge, republican candidate for register of wills, who has made a most thorough canvass, says it will be 1,800. Quite a fight is being made against Mr. George's election. He expects a heavy cut in Cumberland, but thinks he will recover largely in the mining region, and that he will be very little behind the ticket. Frank J. McMahon, ex-mining inspector and independent democrat, who is enthusiastic for Governor Lowndes, has re-turned from a canvass of Garrett county. He is much pleased over prospects there, and says Lowndes' majority will reach 800.

THE ELECTION IN VIRGINIA. Candidacy of A. C. Worsham Alarms

RICHMOND, Va., November 6.-The feature of election day in this city will be the fight which is being made on A. C. Worsham, the only republican candidate for the house of delegates. The democratic management seems thoroughly alarmed and appeals are being made to the voters, both personally and by letter, to turn out and snow him under.

Reports received here from various portions of the state today indicate that the vote will be a light one. There is no way in which an accurate forecast of the result can be made. The democrats profess supreme confidence, but there are so many new elements in the fight that no one car accurately foretell what may happen. It ocrats will have a good majority in both branches of the legislature and it seems absolutely certain that Thomas S. Martin will be re-elected United States senator.

The Presdent told the attorneys to present the mater to the Department of Justice, and if no objection existed there he would sign the order of reprieve. The attorneys went at once to the Department of Justice, which will consent to the reprieve. The President will sign the order on his return from Ohio Supreme Court to present a petition for .

SALE OF F STREET PROPERTY.

An important sale of property was closed today, whereby the title to premises known as 1107 F street was transferred by Mr. M. M. Parker, the owner, to Mr. John W. Nairn. The consideration was \$60,000, and the sale was made through Geo. M. Myers, real estate broker. The property has a frontage of 25 feet 1 inch on the north side of F street just west from the corner of 11th street, with a depth of 100 feet. The improvements consist of a three-story building, which is leased for business purcoses. The lot does not extend to an alley it has a total of 2.594 square feet, and at the price paid the rate per foot was \$23.96. This is the highest price that has been paid for some time for property similarly sit-

It is stated that when Mr. Parker purchased this property, some twelve years ago, he paid for it \$32,000, which, at that time, was considered a high price. Then however, the revenue derived from the property was only about one-half of what t is today. The purchaser, Mr. Nairn, it is understood, bought for investment pur-poses. It is estimated, at the price paid, the property yields a net return of about 5 per cent upon the purchase price

Marcellus has been fitted up with all the necessary apparatus to prove the merits and demerits of the system, and that vessel and the Massachusetts will proceed to sea Wednesday and give it a practical test. After they have got out some distance the battle ship will take the collier in tow, and the experiments will begin. It involves the employment of an overhead cable tramway for carrying coal between two ships while inder way. A tripod of shears has been mounted on the after deck of the Massa-chusetts to carry a heavy wire cable, which in turn will be attached to the foremast of the collier. By means of this cable, and one or more similar cables, if the sea is high, the battle ship will tow the collier. The object is to keep the cables taught and to utilize an elevated one for carrying 400-pound bags of coal from the collier to the pound bags of coal from the collier to the warship. The bags are to be hauled by smaller cables operated by a hoisting engine on the collier. The tramway cable will be about 100 fathoms long, and its ends will be elevated about 20 feet above sea level. The designer of the contrivance claims that an average of forty tons of coal an hour can be transferred in this way. It is understood that the mayal authorities are prepared to adopt the system thorities are prepared to adopt the system for use on all the heavier warships if the rate of fifteen tons an hour is secured in bad weather and without too great a re

DESERTING MR. JONES CAPTURE OF MAGALANG

Former Adherents of Golden Rule Candidate Becoming Weak.

EX-GOV. CAMPBELL'S VIEWS

COLUMBUS, Ohio, November 6,-There

them back into their old party ranks, unloubtedly with some success It is probable that many who have been wearing Jones buttons and working for when they get into the election booth tomorrow that there is no chance of his election, and will vote for their next choice. that Jones was taking more votes from the other party than from it, and so neither can claim benefit from the apparent Jones defection. On the whole, it is likely that Jones is drawing votes from the two big

parties in about equal proportions.

The campaign headquarters here are still open, but all work is closed. The democrats have one more big meeting here tonight. It will be addressed by ex-Governor James F. Campaight.

Republicans Are Jubilant. The republicans seem to be very jubilan

and evidently have encouraging reports. It looks now as though Judge Nash would carry this county. He will also probably carry Hamilton county (Cincinnati) by a small plurality, and with the Jones defec tion in Lucas (Toledo) and Cuyahog: (Cieveland), they are hopeful of small pluralities in those counties. They are chiefly encouraged, however, by the reports from the rural districts. They believe, from what they hear from the country, that the same change of sentiment in favor of the republican party will be shown in those districts this year as there was in 1897. The democrats have been relying on the country being democratic. The republicans now be-lieve that if the vote will be even between the two parties in the cities (and they hope o have a fair plurality there; they will arry the state. On the whole, the situation seems to be favorable to the republicans at the of the campaign than at any time

Ex-Gov. Campbell's Views.

Ex-Governor James E. Campbell, who is o speak in the democratic campaign here tenight, said in an interview this morning that in his opinion "Golden Rule" Jones would receive 150,000 votes tomorrow. No ther party leader has conceded so many before. Mr. Campbell claims that McLean will be elected, but does not give any fig-ures on the plurality.

GREAT ACTIVITY AT CLEVELAND. Both Parties Working Hard on Eve

Special Dispatch to The Evening Star. CLEVELAND, Ohio, November 6.-The active work of the Ohio campaign did not end Saturday night. Today is the liveliest of all in the long and exciting Ohio contest. There will be a dozen republican meetings in this county tonight and nearly as many Jones gatherings.

Republicans are not going to take the advice of their candidate, Judge Nash, to go to bed early tonight in order to prepare for the great undertaking before them to morrow. On the contrary, they are going to shout until midnight and get up early omorrow if they can. Sensational stories of the corrupt use of

money are current here today, but as yet there is no particular evidence upon which to base these allegations. Democrats are xtremely active today preparing to get out the full vote tomorrow, and at the headquarters here claim that McLean will carry this county by a small but safe margin. The Jones snouters are as enthusiastic as ever, but there are evidences on the eve of the battle that his vote will not be as avy as at first anticipated. Party lines are being drawn very close, and many who had expressed their intention of breaking from the party ranks for the independent candidate are weakening at the last moment. Democratic workmen are pretty generally for McLean. Jones recruits will ome chiefly from republican workingmen. The position of Jones on trusts, which is very similar to that taken by Senator Han-na, is having a bad effect in certain quarers which were formerly so strongly for

The McKisson defection is powerful and is making some inroads in the republican ranks. Chairman Seerber of the republican

ranks. Chairman Seerber of the republican county committee at noon predicted the election of the republican county ticket by from 4,000 to 5,000 plurality.

"We are preparing for eleventh-hour tricks," he said, "and will hold meetings all over the county tonight to counteract any corrupt influence or any untrue story which may be circulated to rob us of the victory we have already won." victory we have already won."

Democrats here are more or less disturbed by the reports emanating from Co-

lumbus to the effect that Candidate Mc-Lean has ordered the county tickets every-where traded in his interest. The report is not sufficiently authentic to materially affect the result affect the result There seems to be but little doubt at this time that Judge Nash will carry this county by same plurality as he will all the counties in northwestern Ohio. Republican defection and the Jones yote will cut

which, the republicans say, means a repub-

lican victory.

Senator Hanna's Prediction. CLEVELAND, Ohio, November 6 .- Senator Hanna today reiterated the declaration that Nash would be elected governor at tomorrow's election. He declined, however, to make any estimates, saying that any plurality received by Nash would be a great victory for the republican party in Ohio under the existing conditions.

Senator Hanna addressed a meeting on

the docks this afternoon, and tonight he will speak in the Polish district of the city.

MANILA, November 6.-Two columns of General MacArthur's division yesterday took Magalang, about six miles northeas of Angeles. Colonel Smith, with two battalions of the 17th Infantry, two guns of the 1st Artillery and a body of engineers,

17th Infantry and two troops of the 4th Cavalry, moved from Calulut. Colonel Smith killed eleven insurgents, wounded 128 and captured fifty, as well as taking a lot of insurgent transportation. Captain Brush deployed with the advance guard of the battallon and charged the Filipinos, who took to flight. Seven Americans were wounded. The Americans almost surrounded the insurgents, who resisted stubbornly, but Lieut. Hamilton's artillery cut them up. Lieut, Slavin's troops captured a company of the enemy, with their arms, during the advance.

The landing will be made under cover of the guns of the fleet. It is assouned here that the purpose of the expedition is to move down the Dagupan-Manila railroad toward Tarlac or to prevent Aguinaido's forces making a base farther north. OPINIONS OF FILIPINOS.

PHILADELPHIA, November 6.-Two Filpinos arrived in this city on the bark Cal-

Aguinaldo is a tyrant. He fools his poor, ignorant followers and makes them be-lieve that if the Americans win and get ossession of the islands they will be worse treated than they were by the Spaniards. Many of them still think they are fighting Spaniards, and do not know any better.

Local Predictions Regarding the State Elections.

DOUBT THE PREVAILING SENTIMENT

Few Bets of Any Consequence Are Being Made.

VIEWS ON BOTH SIDES

The passing of Tuesday is being awaited

anxiously in Washington. Very little eise

save the elections is being talked of or thought of, and a remarkable thing is that, with all the interest taken, there are few who are willing to venture a bold prediction as to any state, except where the prediction is made merely for effect. The word "doubt" printed in big red letters would express the prevailing state of mind. Few bets of any consequence are being made. Cigars and drinks are being bet freely enough among men who are in the habit of treating each other or any one who may come along, but betting beyond that goes slow. The most liberal offers of bets have been made by republicans on the result in Maryland. Republican money in sums of from one thousand dollars to twenty-five dollars for even bets that Maryand will go republican has been posted at and will go republican has been posted at one place where most liberal bets are usually made, but little if any of it had been covered up to noon today. The bets that have been made on any of the states have been mostly even. A few even bets have been made that the republican plurality in Ohlo will not be above twenty-five thousand.

All Four States Republican. One man who has a reputation on long-

hance predictions ventured the statement oday that he believed Ohio, Maryland, Kentucky and Nebraska would all go repubican. He based this on the theory that the sympathy of a great mass of the people with the policy of expansion would lead them to vote the republican ticket, notwithstanding any small personal bickerings there might be over local politics. It is universally felt that the administration policy is the great stake in the contest, and faith that the people will not turn the administration down is the sustaining force in keeping up the confidence. keeping up the confidence of the repub-

Last week it was believed that an impasse had been reached, and the diplomats were inclined to fear that no settlement was attainable in the near future.

The sudden turn in the negotiations and the overcoming of the apparently insur-mountable obstacles created almost as much surprise as gratification. Of course, much surprise as gratineation. Of course, it is still within the limits of possibility that another and entirely unexpected contingency may arise during the interim of the drawing up of the papers and signing of them. But, there is every reason to believe that an official statement will be given out this week appointing the terms of the out this week announcing the terms of the settlement of this long standing interna-
